Barony's Scotsman 35th was used by us before being sold at the top of the Indiana State Sale and going to Bihl Bros., Georgetown, Ohio, where he is successfully used. Augusta Queen Belle is one of his daughters. Look her over carefully. She is most desirous in her individuality and will make a valuable brood cow. She is from a family of Augusta cows that are among our best and seldom is one offered for sale. Sells open. Calfhood vaccinated.

★**WILSONA SECRET 7th 2967-143.** She is one of the few B & B Perfect Favor heifers that we are offering for sale. This good headed, dark roan heifer is deep bodied with good bone and extremely smooth. Her mother has dropped five consecutive heifers, and they have produced some of our best show calves. This heifer should make an excellent brood matron. Vaccinated for Bangs and selling open.

# STANDARD GUARANTEE

## OF AMERICAN SHORTHORN BREEDERS' ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All prospective buyers should check health requirements of their states.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.

# There's a PIONEER Hybrid to Fit

Problem soils . . . Thick planting . . .  
Early planting . . . Silage crop . . .  
Picker shellers . . .

**NEARLY EVERY CONDITION**

Most Pioneer hybrids are well adapted and widely planted over a wide variety of soil conditions and for special purposes. But some Pioneer hybrids are particularly adapted to meet specific conditions, such as problem soils, thick planting, early planting, silage crop, picker shellers and so on. Perhaps the most popular Pioneer hybrids in your area will meet your needs. But your Pioneer salesman may be able to recommend a specific hybrid to meet your special conditions. Low eared hybrids . . . hybrids with harder kernel texture . . . hybrids best suited to picker shellers . . . hybrids for many special conditions — they're all available in the Pioneer family of high yielding hybrids.
